PROFESSIONAL SUMMARY

IT Officer and hands-on full-stack developer at Mi Arcus Retails Private Limited, independently building, maintaining and deploying business applications across the frontend, backend and database layers. Experienced in React.js, JavaScript, Node.js, Express.js, SQL/MySQL, REST APIs, Git and company-server deployment. Comfortable owning features end to end—from requirements and interface design to API/database integration, troubleshooting and production support.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, responsive UI development
Backend: Node.js, Express.js, REST APIs
Database: SQL, MySQL, CRUD operations, relational data handling
Tools: VS Code, Git, GitHub, Postman
Additional: SAP, Microsoft Excel, Microsoft Word

PROFESSIONAL EXPERIENCE

IT Officer (Full-Stack Development Responsibilities) — Mi Arcus Retails Private Limited **09 Jul 2026 – Present**

- Own end-to-end development of internal retail operations software using React/Vite, Node.js/Express and MySQL, from UI and API implementation through database integration, testing and deployment. Build and enhance MIARCUS modules for users, stores, departments, designations, checklists, submission tracking, action points, billing, collections, sales operations, visit planning, announcements and reporting.
- Design REST endpoints and SQL data workflows; implement protected routes, role-aware access, filtering, forms, dashboards, exports and validation to support reliable day-to-day operations.
- Support company-server hosting and releases, investigate production issues, resolve UI/functionality bugs and improve reliability, usability and operational workflows.

PROJECTS

MIARCUS — Enterprise Retail Operations Platform Live Platform ↗ ·

Develop and maintain a centralized enterprise platform supporting workforce and multi-store operations. Deliver modules for user/role administration, stores, departments, designations, checklist questions and submissions, action-point follow-up, billing, daily collections, sales teams, visit planning, announcements and management reports. Build responsive React/Vite screens, connect Node.js/Express REST APIs with MySQL, and support role-aware workflows, search/filtering, data exports, notification and email-alert flows.

React.js | Vite | Node.js | Express.js | MySQL | REST APIs | Deployment

VistaraX — Visitor Management System

Built a visitor/reception workflow with a web dashboard and backend API. Supports visitor check-in/check-out, searchable visitor records, role-based administrator and entry-user access, dashboard insights, data exports, real-time Socket.IO notifications and a MySQL-backed deployment setup. Security features include JWT authentication, password hashing, request validation and audit-oriented controls.

React.js | Node.js | Express.js | MySQL | Socket.IO | JWT

More projects: QR Attendance , Calculation Platform and other source code in the complete GitHub repository list ↗ .

CERTIFICATIONS & ACHIEVEMENTS

SAP Global Certification — ERP Fundamentals & ABAP Development **Sep 2025**
Studied SAP ERP processes across Sales (SD), Materials Management (MM) and Finance (FI), plus ABAP data dictionary, internal tables, modularization and report programming.

GeeksforGeeks — Data Structures & Algorithms **2025**
Practiced Java-based problem solving covering recursion, graphs, trees and dynamic programming; worked on algorithmic efficiency and optimization.

Avalanche India Hackathon **Sep 2024**
Collaborated on a blockchain-based decentralized web application using Avalanche, MetaMask and Bitcoin APIs, focusing on wallet authentication, on-chain transactions and balance verification.

EDUCATION

B.Tech — Computer Science & Engineering **2022 – Present**
Centurion University of Technology and Management, Bhubaneswar
CGPA: 8.59

Intermediate — Science (CHSE) **2022**
Bahanaga Higher Secondary School, Balasore
71.33%

Matriculation (BSE) **2020**
Banabishnupur High School, Balasore
73.66%
